SYSTEMS-BUILDING

Redefining Apprenticeship in a modern Economy

NSA – NATIONAL CYBERSECURITY EDUCATION COLLOQUIUM –
SEPTEMBER 20TH, 2023

This presentation was given at the
National Cybersecurity Education Colloquium

APPRENTICESHIP THE GOLD STANDARD

Employer Involvement

Employers are the foundation of every apprenticeship program.

Structured On-the-Job Training

Apprentices receive on-the-job training from an experienced mentor for typically not less than one year.

Related Training and Instruction

Apprenticeships combine on-the-job learning with technical education at community colleges, technical schools, or apprenticeship training schools – or provided on-line or at the job site.

Rewards for Skill Gains

Apprentices receive increases in wages as they gain higher level skills.

National Occupational Credential

Apprenticeship programs result in a nationally-recognized credential – a 100% guarantee to employers that apprentices are fully qualified for the job.

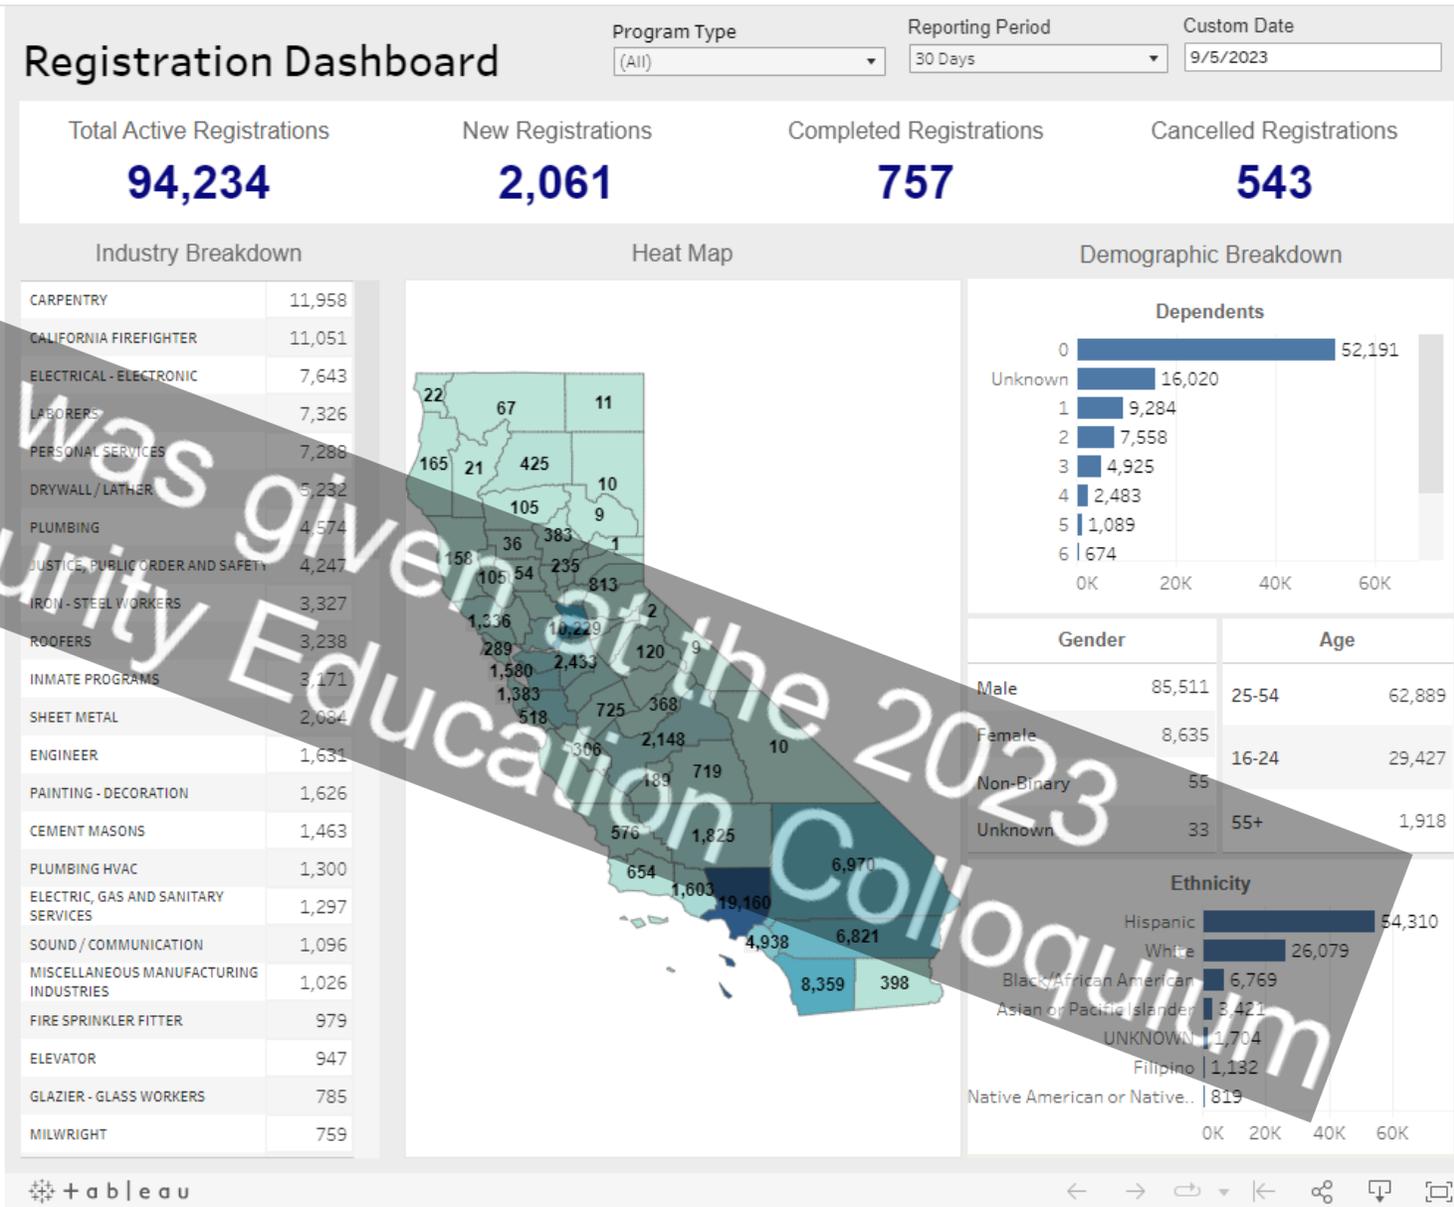

WHY WORKFORCE & EDUCATION PROFESSIONALS CARE:

➤ 95,000 Californians rely on apprenticeship as a BRIDGE TO MIDDLE CLASS

- California leads the nation in apprenticeship training

➤ Apprenticeships = Jobs

- Apprentices make
 - \$300k+ over career
 - Zero educational debt
 - Businesses more competitive

CENTER FOR APPRENTICESHIP
& WORK-BASED LEARNING

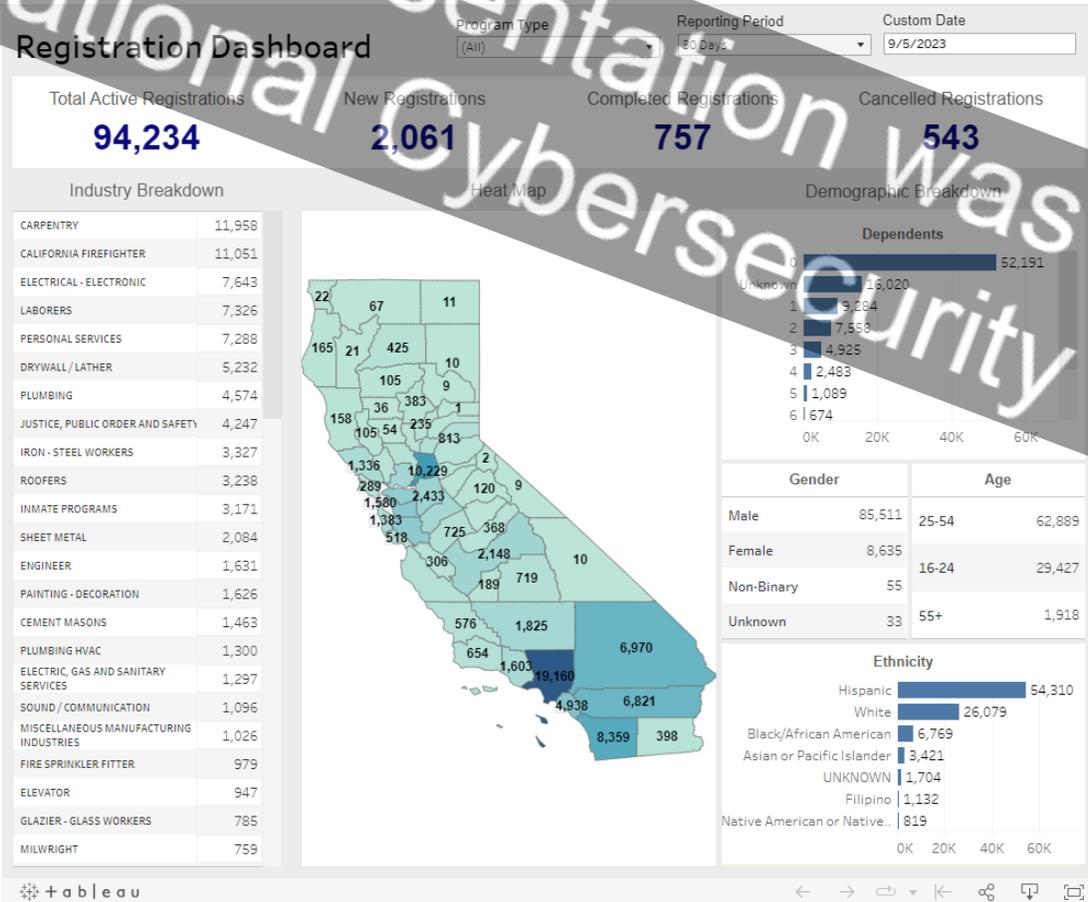

THE BIG IDEA

First, we will develop transformation maps for every cluster, industry and region of our state to make sure we're preparing folks for the jobs that actually exist. Working with UC, CSU and most substantively the community colleges, we will overlay industry trends, job availability, and educational data, and then develop relevant curriculum to meet those workforce and skills needs. We'll also nurture regional and cluster-based collaborations partnering industry, our academic institutions and communities to innovate new ideas and spur economic growth throughout the state.

Second, we will establish 500,000 earn-and-learn apprenticeships by 2029, creating a new vocational pipeline of high-skill workers. In an increasingly global world, apprenticeships provide the education and training necessary to prepare Californians for the jobs of today and tomorrow.

WHY THE NEED FOR AN INITIATIVE...

BY THE NUMBERS

- Only **one quarter** of apprenticeship opportunities exist outside of building trades occupations
- Only **9%** of apprentices are women (majority in lower-paying apprenticeships)
- The average starting age of an apprentice is approximately **30 years old**
(Note: Over **2/3s** of the **400,000** high school graduates in California were identified as socioeconomically disadvantaged, and only **1/3** Californians likely to attain a bachelor's degree)
- **Limited number of** registered apprentices receive higher-education credit locally for their apprenticeship despite completing hundreds of hours annually of high-level education and training

I.E. YOUTH PAYING THE PRICE

OF THE TOTAL YOUTH POPULATION ARE **DISCONNECTED** - ARE NOT IN SCHOOL OR HAVE A JOB

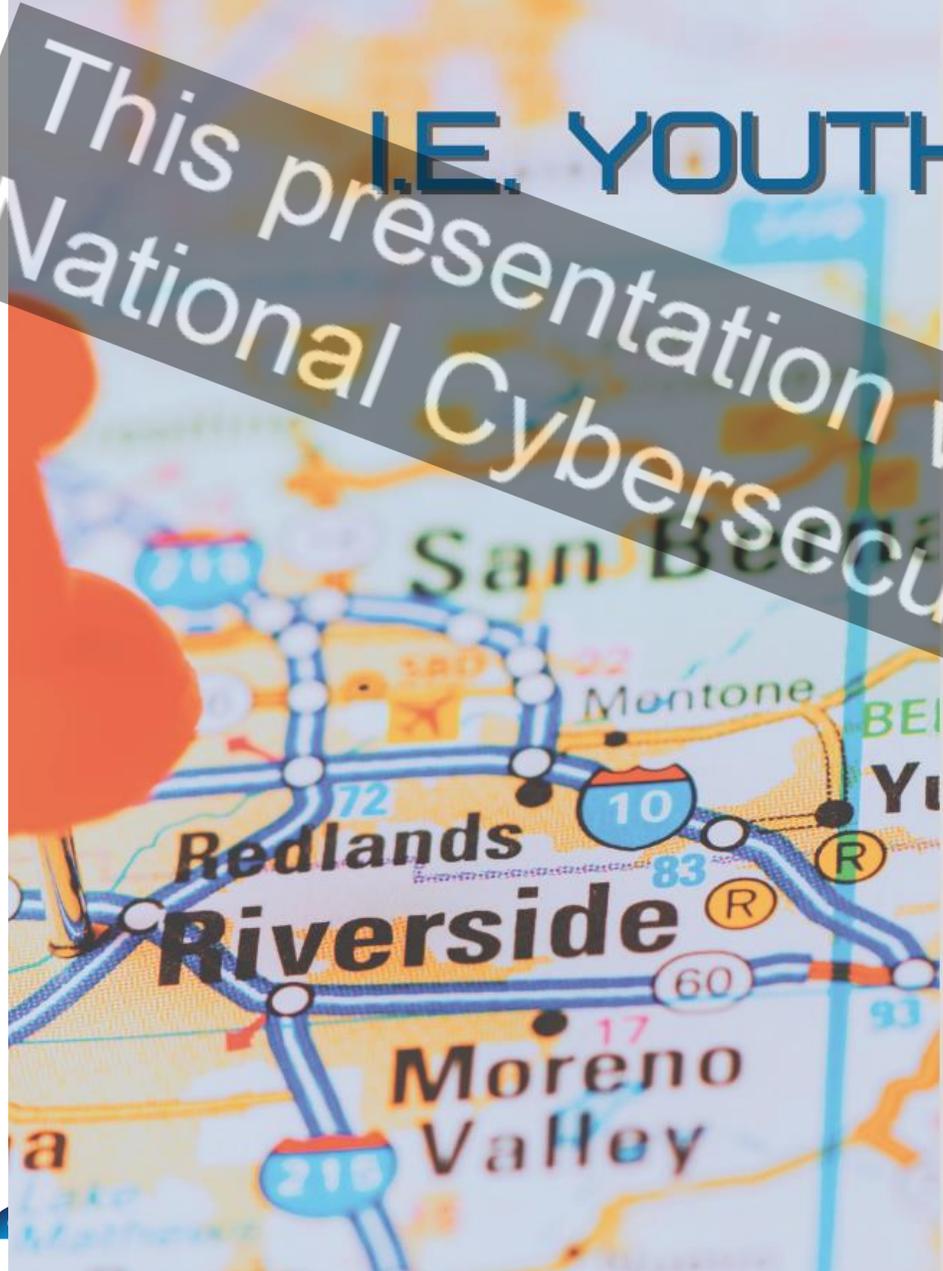

OF RESIDENTS OVER 25 DO NOT HAVE A 4-YEAR DEGREE

THE AVERAGE BALANCE OF **STUDENT DEBT** WITH 40% OF BORROWERS LEAVING COLLEGE BEFORE OBTAINING A DEGREE

REDEFINING THE APPRENTICESHIP FOR A MODERN ECONOMY

From Programs to Apprentice-Centered Systems

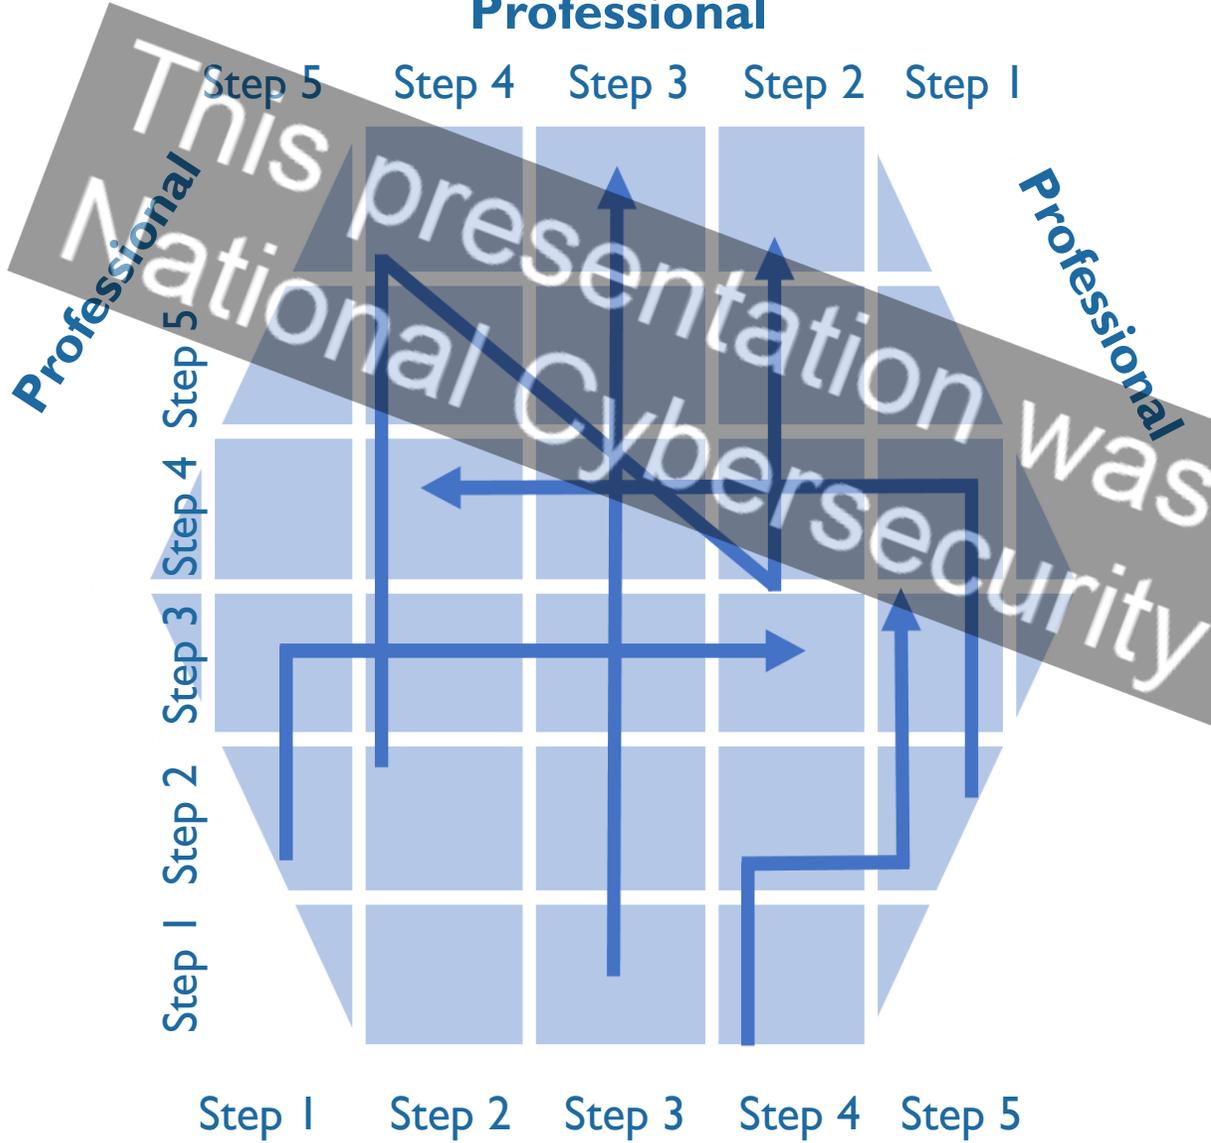

(Old) Occupation-Centered

Apprentices: Individuals enrolled in narrowly-scope training programs with rigid occupational boundaries.

Apprenticeship Programs: One-size-fits-all on-the-job training and related education pathways reliant on prevailing wage labor configurations.

Professional

(NEW) APPRENTICE-CENTERED

- **Apprentices:** Individuals enrolled in comprehensive and individualized programs of training and development that leverage work-based learning, life experiences, and education, and multiplies options for later career advancement.
- **Apprenticeship Programs:** Organizations managing partnerships among businesses and education institutions that provide meaningful paid work-based learning opportunities, academic credentials for competency attainment, and career progression pathways.

APPRENTICES LEVERAGE LIFE AND WORK EXPERIENCE

CYNTHIA ROMAN

WHY DO YOU WANT TO WORK IN THIS INDUSTRY?

When I first got into this industry, I thought it only focused on hacking or IT Operations. Reviewing the NIST Frameworks and the fifty-two work roles opened the doors to many possibilities. Furthermore, doing research for a NASA Academy I was a part of introduced me to concepts involving interplanetary internet and delay-tolerant networking. This amazed me because NASA is seen as an aerospace company, but how else can an astronaut be able to connect with us back on earth, with satellites, and that is in the realm of networking. This industry excites me because I can better understand how we are connected and collect data to analyze on establishing efficient solutions to make our lives easier and safer from threat actors.

WHAT IS YOUR MOTIVATION?

Being able to attain an apprenticeship will provide me with the foundation to build my cyber skills to inform and protect people from harmful social engineering attacks that can cost people millions and their well-being. I remember when my grandfather was scammed for \$1,400 through a phone call and the devastating toll it took on my grandparents. I was twelve years old and clueless about what had happened to them, but I knew I never wanted them to feel that despair again.

KEY SKILLS & CHARACTERISTICS

- » CSUSB Cybersecurity Pre-apprenticeship Program
- » Completed an introductory course to hardware essentials, information security, networking fundamentals, and database theory
- » Currently studying for CompTIA A+ certification before it expires
- » Built an Onshape, NX, Python, and Raspberry Pi project.
- » Completed an internship that focused on STEM concepts.

APPRENTICE INFO

- » **Apprenticeship Status:** Active Apprentice
- » **Industry Sector:** Information Technology

Provide soft skills education for apprentices

Recruit employers to start new apprenticeship programs

Educate middle and high school students about apprenticeships

Guide employers through apprenticeship program design and registration

Identify locally in-demand occupations ripe for apprenticeships

Provide apprentices with career counseling, mentorship, and tutoring

American Apprenticeship Institutes

Modern Apprenticeship Institutes

Provide or connect apprentices with young kids to childcare services

Match new workers and transitioning workers with apprenticeships

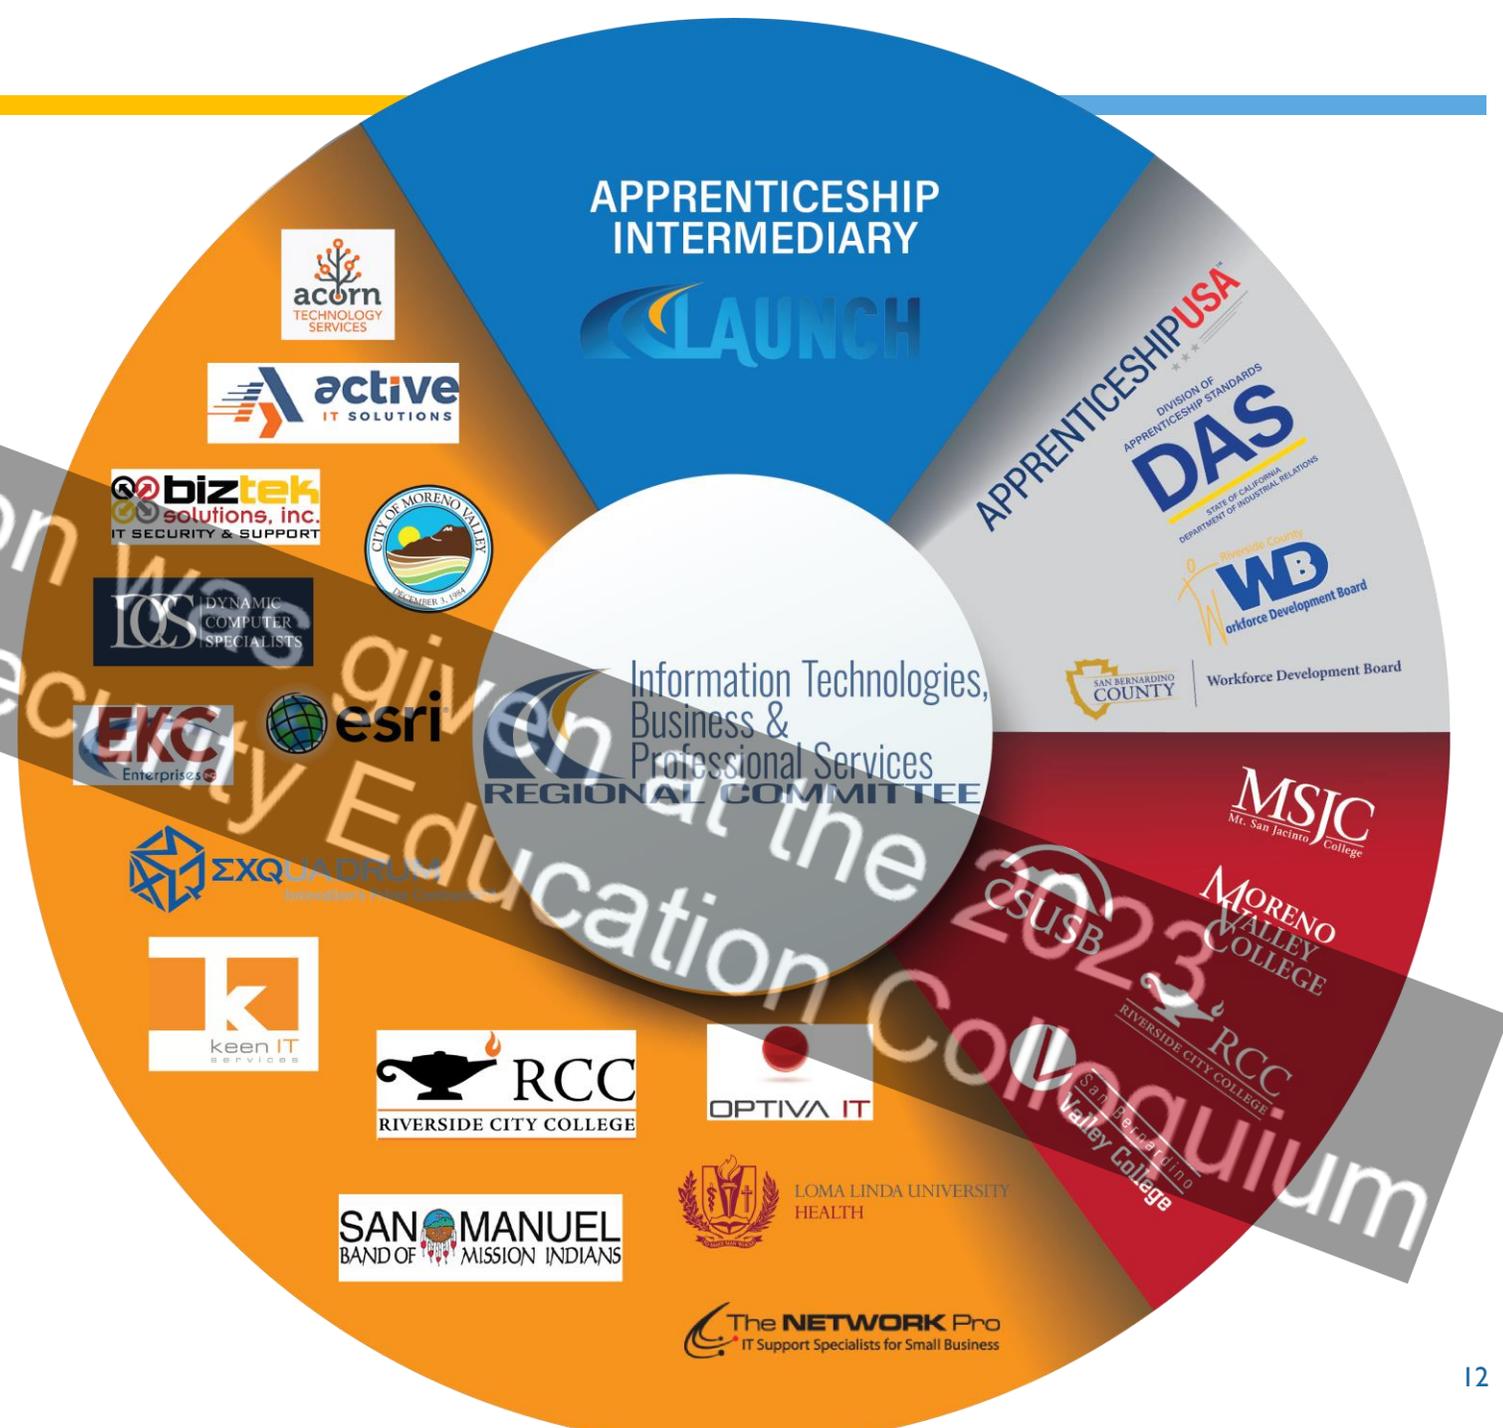

Evaluate apprenticeship curricula and report quality metrics to DoL

Connect employers with local colleges to provide classroom instruction

INLAND EMPIRE CYBERSECURITY INITIATIVE – APPRENTICESHIP COMMITTEE

- Industry-Led and Apprentice-centered
 - The schools provide the administrative services to register and operate the apprenticeship program.
 - Industry partners provide work-based learning experiences for apprentices through employment and targeted upskilling.
 - The schools provide the related education component.

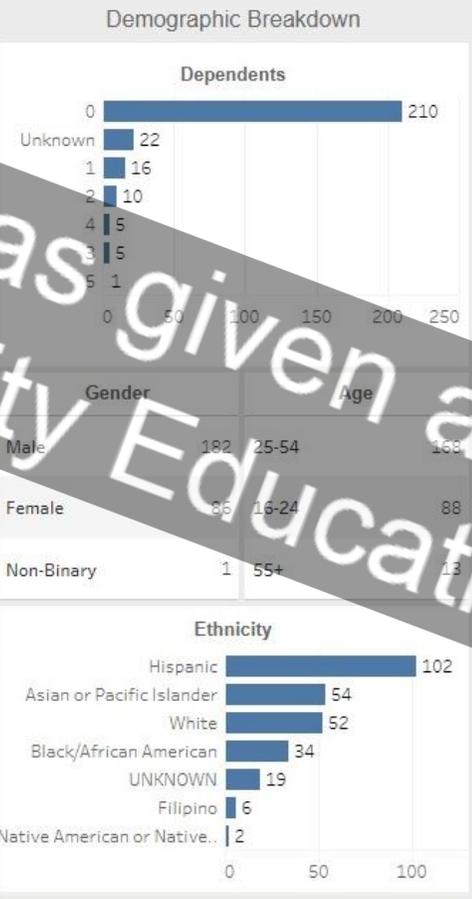

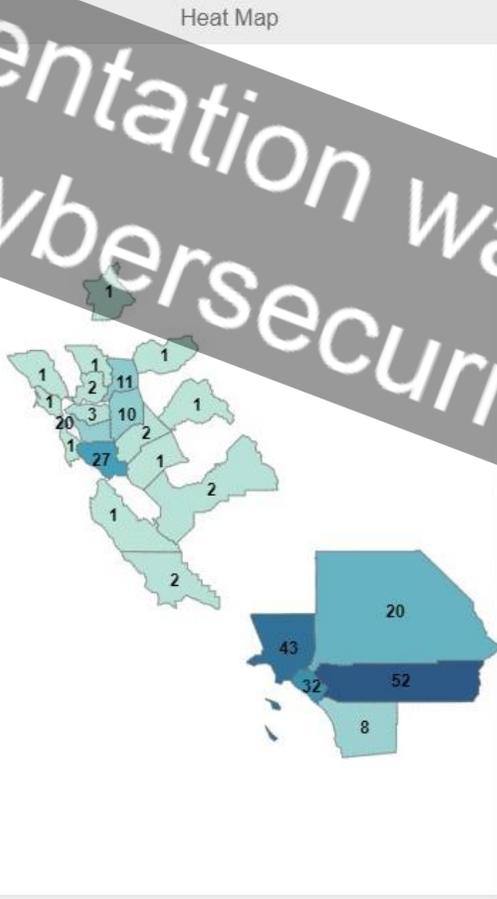

Registration Dashboard

Program Type: (All) | Reporting Period: 30 Days | Custom Date: 8/28/2023

Total Active Registrations: **269** | New Registrations: **28** | Completed Registrations: **50** | Cancelled Registrations: **4**

Industry Breakdown

FOOD STORES	337
EATING AND DRINKING PLACES	304
BOILERMAKER	289
INFORMATION TECHNOLOGY	269
BRICKLAYER	238
INSPECTOR/TESTER	216
PLASTERERS	216
SHEET METAL HVAC	203
TEAMSTER	175
EXECUTIVE, LEGISLATIVE, AND GENERAL GOVERNMENT, EXCEPT FL. TESTER	164
MANUFACTURING/AEROSPACE	160
BUSINESS SERVICES	135
ELECTRICAL AND ELECTRONIC MACHINERY, EQUIPMENT AND SUPP. HOTELS, ROOMING HOUSES, CAMPS AND OTHER LODGING PLACES	90
MACHINERY, EXCEPT ELECTRICAL	83
LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE	82
FOOD AND KINDRED PRODUCTS	55
AGRICULTURAL PRODUCTION - CROP:	54
MISCELLANEOUS REPAIR SERVICES	50
MOTOR FREIGHT TRANSPORTATION AND WAREHOUSING	49
ADMINISTRATION OF ENVIRONMENTAL QUALITY AND HO...	44
MOTION PICTURES	38
STONE, CLAY, GLASS, AND CONCRETE PRODUCTS	32
PRIMARY METAL INDUSTRIES	26

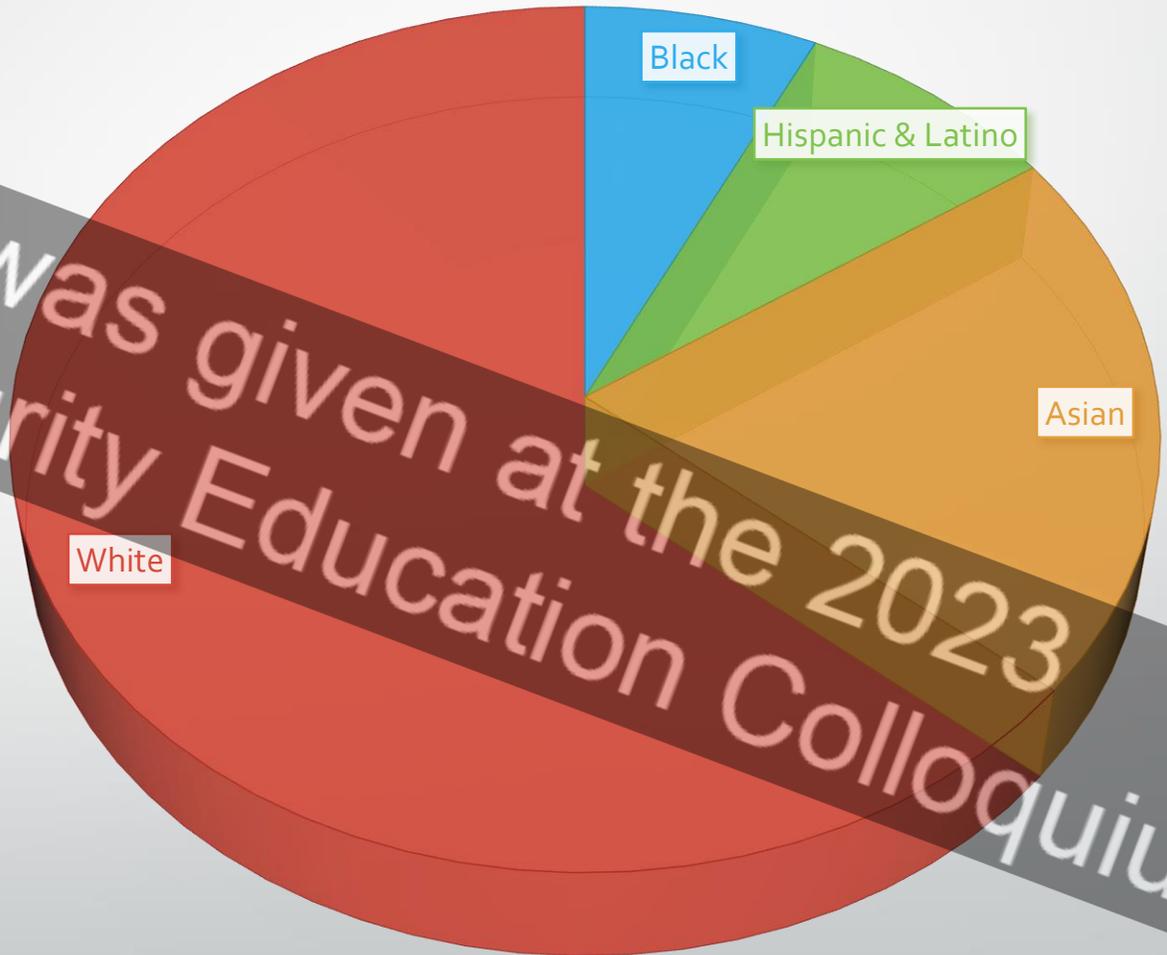

AIMING FOR ECONOMIC IMPACT

Inland Empire

- Greatest number of Cybersecurity Apprentices in state of California
- Earn-and-Learn Pathways starting is HS through Bachelor's and advanced degrees

This presentation was given at the National Cybersecurity Education Colloquium

HIGH TECH LABOR FORCE BY RACE

Serving Industry and
Serving Residents

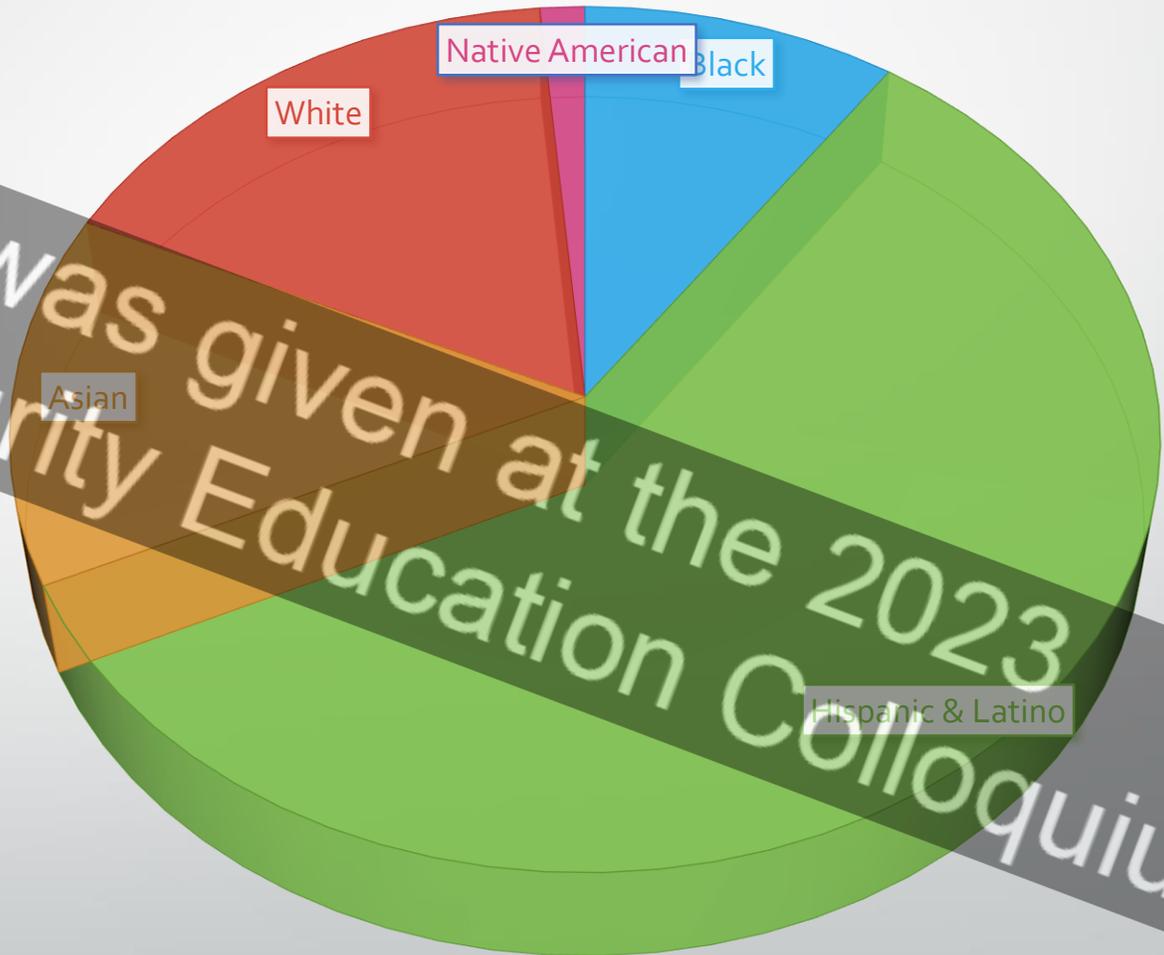

- Publicly supported programs must be publicly accessible
- Industries need help diversifying talent
