NSA Codebreaker Challenge 2024

NSA is always recruiting bright determined individuals to help protect our country! Are you up to the challenge?

Nation-State Advanced Persistent Threats (APTs) are targeting our Defense Industrial Base (DIB) contractors.

Stop them from infiltrating and sabotaging U.S. military operations by leveraging skills in:

- Reverse Engineering
- Vulnerability Research & Exploitation
- Artificial Intelligence & Machine Learning
- Cryptanalysis
- Forensics
- Programming

Who: Individuals at U.S. academic institutions

What: Annual NSA-themed cybersecurity challenge

Where: Register at https://nsa-codebreaker.org

When: September 16, 2024 – January 17, 2025
