

The University of Tulsa is a private, doctoral-degree granting research institution in Tulsa, Oklahoma

The University of Tulsa (TU) has been a designated Center of Academic Excellence in Cyber Defense since 2000 and was one of the first 14 institutions awarded this distinction. TU also is recognized as a CAE in Research and Cyber Operations. TU cybersecurity alumni are employed worldwide in leading roles among the private and public sectors, as well as academia.

TU offers multiple programs for students who want to advance in cybersecurity education. At the undergraduate level, students from disciplines across the university can pursue a minor in cybersecurity. Graduate students can earn master's degrees in cybersecurity and computer science. The Master of Science in Cybersecurity offers an online professional track degree, as well as an accelerated option. The Ph.D. degree in computer science targets

graduate students seeking a career in research and scholarship. TU has a long-standing reputation for excellence in cybersecurity research with campus projects supported by the National Security Agency, U.S. Department of Defense, National Science Foundation, U.S. Department of Energy, the U.S. Department of Transportation, the National Institute of Justice and the Defense Advanced Research Project Agency.

Armed with a high-quality education and valuable experience in research and real-world scenarios, TU's cybersecurity graduates are well equipped to serve in intellectually stimulating and personally rewarding roles that strengthen national and global security. Graduates are grounded in the theory, concepts and techniques of information assurance, and network defense and apply them in real-world settings.

DESIGNATIONS

- CAE - Cyber Defense Education
- CAE - Cyber Defense Research
- CAE - Cyber Operations
