LAGUARDIA COMMUNITY COLLEGE

LaGuardia Community College (LAGCC)

The Cybersecurity A.A.S. program at **LaGuardia Community College** is designed to equip students with the expertise necessary to safeguard digital systems and counter cyber threats. The industry-driven curriculum provides a comprehensive foundation in network and computer security, cryptography, and digital forensics, ensuring that students develop theoretical knowledge and hands-on learning with real-world applications.

The Cybersecurity faculty at LaGuardia is comprised of experienced professionals who bring real-world expertise into the classroom, ensuring students gain practical knowledge alongside theoretical instruction. Through CyberCircle, students engage in workshops, competitions, and networking opportunities that enhance their technical proficiency and problem-solving ability. Collaborations with industry partners provide students with valuable internship, apprenticeship and career placement opportunities, ensuring they gain meaningful professional experience before entering the workforce.

LaGuardia, part of the City University of New York (CUNY), offers over 50 associate degrees and certificates to prepare students for transfer to senior colleges and rewarding careers. Since 1971, LaGuardia's programs and services have advanced the socioeconomic mobility of students. LaGuardia's mission is to educate and graduate one of the most diverse student populations in the country to become critical thinkers and socially responsible citizens who help to shape a rapidly evolving society. LaGuardia is a designated Hispanic-Serving Institution is an Asian American and Native American Pacific Islander Serving Institution and is part of the Minority Science and Engineering Improvement Program.
