

Welcome to Massachusetts Bay Community College

Massachusetts Bay Community College (MassBay) is a place that changes lives. Dedicated to student learning and achievement, we offer associate degrees and certificate programs that provide students with the practical education needed for transfer to accredited bachelor's degree programs or direct entry into high-demand career fields. At MassBay, our students have opportunities to enrich their college experience through leadership and participation in activities, student services, field work with local businesses, civic organizations, and schools.

Founded in 1961, MassBay is one of 15 publicly funded community colleges in Massachusetts and is fully accredited by the New England Commission of Higher Education - NECHE (formerly NEASC) and program-specific national accrediting bodies. We serve approximately 6,000 full-time and part-time students from the greater Boston and the MetroWest region on

our campuses in Wellesley Hills, Framingham, and Ashland. Our alumni/ae are teachers and college professors, entrepreneurs and business owners, lawyers and elected officials, and everything in between.

With ever increasing threats and risks to organizations' information and data, the need for employees who can identify, prevent, mitigate, and address the threats to their network is at an all-time high.

MassBay has responded to the growing regional and national need for well-trained cybersecurity professionals by creating a Center for Cybersecurity Education. The Center is built around MassBay's Cybersecurity programs (certificates and the first A.S. degree in MA) which align with national frameworks and educational guidelines.
