

MGA Macon Campus

**Middle Georgia State University (MGA)** is a regionally focused university serving over 8,000 traditional and adult students with campuses in Macon, Cochran, Dublin, Eastman, and Warner Robins. The University is one of the state's best values in public higher education; a student can earn a bachelor's degree for about \$20,000, which is about \$2,500 in tuition and fees per semester.

MGA's School of Computing Department of Information Technology offers a Bachelor of Science in Information Technology (BSIT) program which is accredited by the Computing Accreditation Commission of ABET and includes a concentration in Cybersecurity. The Department also offers a fully online Master of Science in Information Technology with a concentration in Cybersecurity and Forensics.

With a student enrollment of over 1100 students,

the Department of Information Technology is fully equipped to produce the next generation of technology and cybersecurity experts. Students have one-on-one interaction with highly qualified faculty who are actively engaged in research publications and scholarly activities.

The Department is dedicated to developing the finest degree program and producing graduates with a diversified set of skills, roles and experiences, including knowledge in cybersecurity, networking, data analytics, media design, application development, and Informatics. All IT courses focus on critical thinking, problem solving, decision making and interpersonal and communication skills. They are offered day and evening in classroom settings, online and a blend of classroom and online.

Students utilize state-of-the-art digital forensics and security labs. Outside the classroom, students participate through CyberKnights, The Association of Information Technology Students (AITS), Alpha Iota Mu, or the new Cyber-Knight Student Ambassador program.

Each year the Department's Center for Cybersecurity Education and Applied Research (CCEAR) hosts an Academic Cybersecurity Seminar to provide students and the community the opportunity to network with experts in the cybersecurity field.
