NSA Cyber Exercise (NCX)

<u>Participants:</u> Undergraduate cadets, midshipmen, and ROTC students at the Service Academies and Senior Military Colleges.

<u>POC:</u> Kelley Welch (kkwelch@uwe.nsa.gov)

<u>Description:</u> The NCX is a year-round education program that culminates in a comprehensive 3-day exercise that serves a vital purpose in growing the next generation of cyber warriors and leaders to defend the Nation. The NCX advances strategic cybersecurity goals by developing and testing cybersecurity skills, teamwork, planning, communication, and decision-making of cadets, midshipmen, and Reserve Officer Training Corps (ROTC) students in the U.S. Service Academies and Senior Military Colleges (SMCs). As a result of the NCX, participants are better prepared to successfully outsmart, outmaneuver, and outlast the cyber adversary.

<u>Key Dates:</u>

19-21 April, 2023 (virtual)
