

CAE
IN CYBERSECURITY
COMMUNITY

BRINGING Different Disciplines and Competitions in your Classroom

Eric Chan-Tin and Mohammed Abuhamad
Loyola University Chicago

2025 CAE

About us

- Cybersecurity and Artificial Intelligence research
- Designed and launched new BS and MS in Cybersecurity
- Mentored over 50 students in past 5 years
- Coach students in competitions and three student clubs
 - WiCyS, 7968, Don't Panic!
- Director of interdisciplinary Center for Cybersecurity

Symposium

2025 CAE

About Loyola

- Loyola University Chicago designated since June 2020
- Curriculum:
 - Intro to Programming, Linux, Computer Architecture
 - Intro to Security, Network Security, Wireless Security, Vulnerabilities, Forensics
 - Computer Networks, Operating Systems
 - Cyber Crime
 - Practicum: competitions, research, broadening participation, or research
- Computer Crime and Forensics Minor
 - Criminal Justice & Criminology and Computer Science

2025 CAE Interdisciplinary

- Computer Science, Cybersecurity, Computer Engineering, Electrical Engineering, Software Engineering, Information Technology
- Psychology, Criminal Justice & Criminology, Sociology, Political Science, Business

Why?

- Cybersecurity is not technical “hacking” only
- Diversity of backgrounds (technical, non technical)
- Diversity of skills (writing, programming, speaking, outside the box, critical thinking)
- Work in a team
- Greater impact in education and research
- Possibility of more funding \$\$\$
- Attract more diverse students

2025 CAE Competitions

- Collaborative
- Learning experience
- Experiential learning
- Hands-on skills
- Real-world scenario
- Access to resources that wouldn't be available
- Teamwork
- Develop soft skills like communications, time management
- Networking

Competitions

- National Cyber League (every semester)
 - “Easy”
 - Range of challenges
 - Can be done without a Virtual Machine
- Department of Energy Cyberforce competition (fall semester)
 - Report writing
 - Presentation
 - Anomalies (jeopardy-like)
 - Blue team
- Social Engineering competition
- NCAE Cyber Games
 - Blue team
 - Teamwork
- How to fund
 - Lab fees
 - Gifts/Donations

Center for Cybersecurity

- Took 6 years to get proper benefits
- Talk to faculty in other departments
- Try to find a common theme
- Propose some ideas for collaboration
- Start a dialogue about incorporating other classes in your curriculum
- Find a core group of students to help with cybersecurity clubs and competitions
- Worth it for yourself and for your students!

THANK YOU!
