The “Smoking Gun”

On December 27, 2022, Pennsylvania Agents recovered the trash from the Kohberger family residence located in Albrightsville, PA. That evidence was sent to the Idaho State Lab for testing. On December 28, 2022, the Idaho State Lab reported that a DNA profile obtained from the trash and the DNA profile obtained from the sheath, identified a male as not being excluded as the biological father of Suspect Profile. At least 99.9998% of the male population would be expected to be excluded from the possibility of being the suspect’s biological father.

Trial is pending

Prosecutors leading the case are asking for Kohberger's trial to be scheduled for the summer of 2024.
